

RESEARCH CORPORATION OF THE UNIVERSITY OF GUAM

Fee Structure for Contracts

The Research Corporation of the University of Guam (RCUOG) charges fees for professional services related to grant management. Contract work comes with associated costs and therefore it is reasonable for RCUOG to request compensation for administrative expenses undertaken as a direct result of grants management.

RCUOG'S fee structure for contracts is as follows:

CONTRACTS

- Contracts must include a 10% administrative fee as part of their budget to cover administrative costs associated with managing grant funds.

Principal investigators are encouraged to include administrative fees as part of their proposal budgets in order to support grant management functions. As a general rule, contracts that do not incorporate administrative fees will not be managed by RCUOG.
